- A. Increasing demand form of payment.
- B. High liquidity and also easy integration to fintech services
- C. Adaptable in any centralized(CeFi) and decentralized platform (DeFi).
- D. Secured and safe finance.

Core ideology of Speedking

The core ideology of Speedking is to bring the best anonymous form of payment to the world 🌐, Money is the last thing we think of, and we know that we need money to keep running but we first focus on making and ensuring everyone that invest or buy any of our token or product get the best of his money and also earn a profitable dividend in both the short and long run.

So in case you are reading this we also listen to your complains, because the main aim of business is not just to make money but to create a creative and profitable service to the world.

FUTURE PLANS

1. Create coin with high security, new system etc
2. Create a utility on SKTG such as bills payment.
3. Listing in a CEX or creating a profitable form of exchange to serve our customers
4. Registering our company.
5. Staking will be introduced.
6. We'll launch our app on PlayStore for easy usage, amongst other plans.
